PROFESSIONAL EXPERIENCE

PGIM

Newark, NJ

CLO Research Investment Analyst

July 2025 - Present

- Lead semi-monthly reporting process for five CLO portfolios, including writing CLO test fail commentary and tracking deal lifecycles across 50+ managers
- Support due diligence process for 100+ CLO managers by attending industry conferences and synthesizing meeting notes
- Developing AI-powered tool in collaboration with internal tech team to automate analysis of daily deal notices, reducing manual review time across 1000+ active deals
- Streamlined recurring workflows using Claude, including automating trade setup emails (7 min → 2-3 min) and repairing existing macro logic

UBS

New York, NY

Global Markets High Yield Credit Co-op

August 2024 – December 2024

- Conducted industry research, summarized earnings calls, and assisted with components of financial models using Excel
- Pitched five trade ideas spanning metals & mining, airlines, fintech, and media sectors, conducting relative valuation, catalyst analysis, and pricing across the capital structure

PGIM Fixed Income

Newark, NJ

Summer Investment Analyst (Portfolio Analysis Group: Investment Grade)

June 2024 – August 2024

- Evaluated positioning/risk exposures for six portfolios and distributed daily morning report to respective analysts
- Synthesized technical market and internal data using Aladdin, SQL, Excel, and Bloomberg for ad-hoc data analysis requests
- Researched ESG integration at PGIM and three industry peers to recommend new market expansions and ESG products

CohnReznick LLP

Boston, MA

Transactions and Turnaround Advisory Co-op

September 2023 – December 2023

- Analyzed financial statements/disclosures and operational trends across six buy/sell-side M&A transactions to develop management meeting materials
- Built and reconciled financial databooks using company financials in Excel across multiple deal processes

PROJECTS

Glo

Remote

Founder

April 2025 – September 2025

- Designed iOS app for sharing beauty reviews, building wishlists, and curating skin profiles (type, tone, concerns) to address the lack of honest and relevant reviews in beauty discovery
- Built full-stack app using Cursor and ChatGPT, owning end-to-end development from branding to App Store launch; assembled a product database from open-source data plus a manual verification pipeline, with backend moderation to flag harmful content before publishing
- Ran organic TikTok/Instagram growth experiments, testing founder-story, beta-preview, and beauty-content angles while iterating on engagement data to improve distribution

Forge

Boston, MA

Product Lab Team Member

January 2024 – April 2024

- Defined product requirements and prototyped safety-detection system for ski goggles to address blind spot problem for beginner skiers
- Coded Raspberry Pi and thermal camera in Python, processing temperature arrays to trigger real-time directional LED alerts
